DE-CIX Internet Exchange Update
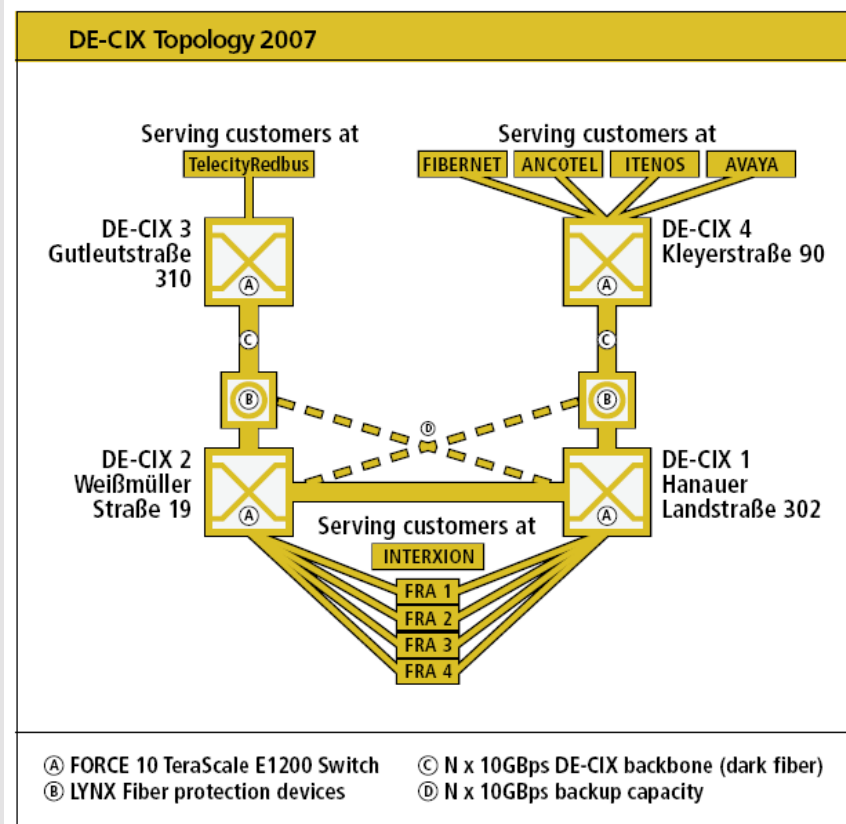

http://www.de-cix.net

2007-05-09, RIPE54, Tallinn

What happened since RIPE53?

- Migration from Cisco C6509 to Force10 E1200

    – higher port density
    – port security/ACL on EthernetChannels
    – X3 platform scales up to 140x10GE wirespeed

    – moved ~180 ports and 120 customers
    – mid November 2006 till end January 2007

    – DE-CIX4 @ Kleyerstraße fully operational
    – pulled back customers from DE-CIX3

New Topology

DE-CIX switch locations
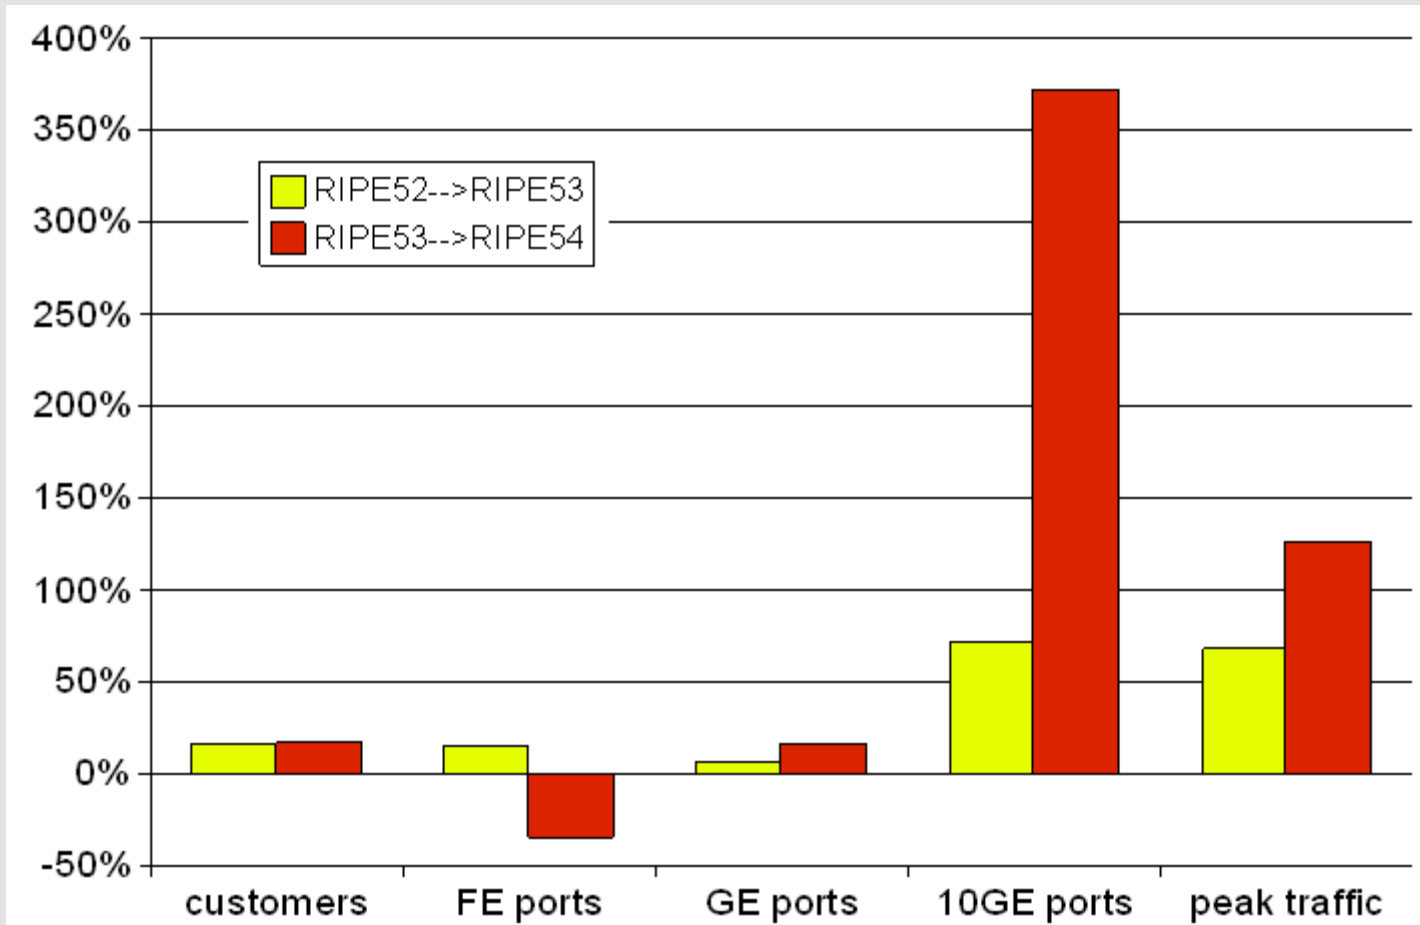

What happened since RIPE53?

- New staff (Daniel Melzer & Florian Täger)
- Introduced TicketSystem (RT)
