Cable & Wireless, Munich

- Proposal: To make a very special policy a bit less special

- Proposal: To make a very special policy a bit less special

- Open Anycasting DNS Assignments to non-TLD operators

- Proposal: To make a very special policy a bit less special

- Open Anycasting DNS Assignments to non-TLD operators

- "IANA Administrative Procedure" still applies, though intended only for TLDs

- Proposal: To make a very special policy a bit less special

- Open Anycasting DNS Assignments to non-TLD operators

- "IANA Administrative Procedure" still applies, though intended only for TLDs

- Clarification: "An organisation" means both, the operator of the DNS and the TLD manager in case of a TLD server

- Proposal: To make a very special policy a bit less special

- Open Anycasting DNS Assignments to non-TLD operators

- "IANA Administrative Procedure" still applies, though intended only for TLDs

- Clarification: "An organisation" means both, the operator of the DNS and the TLD manager in case of a TLD server

- Difficult: Proof of existence of the Anycasting DNS Setup. Is it necessary?

Let's discuss!
