

# Person data clean up

Denis Walker

# Personal data clean up

- Crucial from DP viewpoint
  - Must be relevant to the purpose of the RIPE DB
  - Key role of Data Controller to regularly audit the personal data
- Aspects of the one time clean up – 0.5 million objects
  - Personal and role objects only
  - Unreferenced but possibly maintained objects
  - No advance warnings but normal notifications will be send
  - Staged over a 6 months period
- Follow up with a regular clean up process to be defined
